Churches have faith in the Duro-Last roofing system.

PUT YOUR TRUST IN A DURO-LAST® ROOF.

DURO-LAST...A ROOF YOU CAN HAVE FAITH IN.

Churches throughout North America have chosen the Duro-Last roofing system to protect their hallowed halls and contents. Congregations appreciate a Duro-Last roof because it provides a leak-proof and virtually maintenance-free roofing system for their place of worship.

CUSTOM PREFABRICATION IS THE DIFFERENCE

The Duro-Last roofing system is perfect for any flat, low-sloped, new or retrofit application.

Each Duro-Last project is custom prefabricated to fit every roof precisely, and we specialize in unique church designs. By performing 80-85% of membrane seaming in our controlled factory environment, Duro-Last reduces the potential for rooftop installation errors and leaks.

DURABLE

The Duro-Last roofing system is fire retardant, resistant to chemicals, grease, high winds, and punctures, and easily accommodates wide temperature extremes. Duro-Last's custom flashings resist ponding water and help solve roof problems before they happen. Once installed, a Duro-Last roof is watertight.

NO DISRUPTION TO CHURCH ACTIVITIES

Installation is quiet and safe, without loud machinery, hazardous materials, noxious fumes, hot tar or mess. A new Duro-Last roofing system can often be installed over an existing roof without an expensive tear-off, virtually eliminating debris that could disrupt church building activities or damage church valuables.

ENERGY-EFFICIENT

The Duro-Last white membrane is highly-reflective throughout its life span on the roof, saving significant energy and money for building owners all over North America.

AESTHETICALLY-PLEASING

Because many churches are unique structures, often with slopes that highlight the rooftop, the Duro-Last roofing system can provide a beautiful accent. Available in white, tan, and gray colors, you can select what works best for your church.

BACKED BY THE INDUSTRY'S BEST WARRANTIES

Duro-Last is so confident in the durability of our roofing systems that we protect commercial and industrial installations with the best warranties in the industry. Our standard, comprehensive 15-year No Dollar Limit (NDL) warranty is transferable, has no exclusions for ponding water, and provides coverage against consequential damages that result from defects in the Duro-Last material and/or installation workmanship. Duro-Last also has 20-year warranties available.

CODE COMPLIANT

Duro-Last has met or exceeded all major fire and wind code requirements as well as regional approvals throughout the country, reinforcing Duro-Last's leadership in providing consistent watertight integrity.

PROFESSIONALLY INSTALLED

The "World's Best Roof"® is installed by authorized contractors who can draw on the expertise of Duro-Last's designers, engineers, and quality assurance tech reps to ensure that every roof is installed to specification.

DELIVERS LONG-TERM VALUE

Custom prefabrication. Energy savings. Durable, leak-proof, virtually maintenance-free performance. Industry-leading warranties. Installed by authorized, professional contractors. The Duro-Last roofing system provides the best long-term protection for your church.

TRUST DURO-LAST FOR A LEAK-PROOF ROOF ON YOUR CHURCH.
