Manufacturing facilities trust Duro-Last® Roofing, Inc.

THE DURO-LAST®  
ROOFING SYSTEM KEEPS  
MANUFACTURING AND  
INDUSTRIAL FACILITIES  
HIGH, DRY, AND  
RUNNING SMOOTHLY

When roof leaks occur on your busy manufacturing facility, you wish you could stop time. But you can't. And time is money. If you can't afford to shut down your manufacturing facility because of a leaky roof...it's time to put your trust in the Duro-Last® roofing system.

### Business As Usual

A Duro-Last installation can be completed throughout the year, regardless of climate or temperature extremes. Installation is quiet and safe, without loud machinery, hazardous materials, noxious fumes, hot tar or mess.

A new Duro-Last roofing system can often be installed over an existing roof without an expensive tear-off, virtually eliminating debris that could disrupt building activities or damage sensitive equipment.

The Duro-Last roofing system is perfect for any flat, low-sloped, new or retrofit application.

### Custom Prefabrication Is The Difference

Each Duro-Last project is prefabricated to fit every manufacturing/industrial roof precisely. By performing 80-85% of membrane seaming in our controlled factory environment, Duro-Last reduces the potential for rooftop installation errors and leaks.

### Durable

The Duro-Last roofing system is resistant to fire, chemicals, grease, high winds, and punctures. Duro-Last's custom flashing resists ponding water and helps solve roof problems before they happen. Once installed, a Duro-Last roof is watertight and virtually maintenance-free.

### Energy-Efficient

The Duro-Last white membrane is highly-reflective throughout its life span on the roof, saving significant energy and money for building owners all over North America.

### Professionally Installed

The "World's Best Roof"® is installed by authorized contractors who can draw on the expertise of Duro-Last's designers, engineers, and quality control technicians to ensure that every roof is installed to specification.

### Backed By The Industry's Best Warranties

Duro-Last is so confident in the durability of our roofing systems that we protect commercial and industrial installations with the best warranties in the industry. Our standard, comprehensive 15-year No Dollar Limit (NDL) warranty is transferable, has no exclusions for ponding water, and provides coverage against consequential damages that result from defects in the Duro-Last material and/or installation workmanship. Duro-Last also has 20-year warranties available.

### Code Compliant

Duro-Last has met or exceeded all major fire and wind code requirements as well as regional approvals throughout the country.

### Delivers Long-Term Value

Custom prefabrication. Energy savings. Durable, leak-proof, virtually maintenance-free performance. Industry-leading warranties. Installed by authorized, professional contractors. The Duro-Last roofing system is the best long-term investment for your manufacturing/industrial facility.

**KEEP YOUR MANUFACTURING/INDUSTRIAL FACILITY OPEN FOR BUSINESS. INSTALL THE DURO-LAST ROOFING SYSTEM TODAY.**
