A Duro-Last Designer Series Roofing System.

**Rock Look –
Watertight Single-Ply
Performance**

The Duro-Last® Rock-Ply™ Roofing System

The Perfect Combination Of Watertight Integrity And Aesthetics.

The Duro-Last Rock-Ply roofing system is ideal for commercial applications where rooftop appearance is important, but conventional rock or stone ballast may not be practical. The Rock-Ply system:

- Provides a ballast look and the watertight performance and long-term durability of a thermoplastic, single-ply roofing system.
- Is made from the same proven, durable membrane as the traditional Duro-Last roofing system. The rock pattern is printed onto the membrane, and a special polymer coating helps protect the finish from marring, fading, and dirt accumulation.
- Like the traditional Duro-Last roofing system, is prefabricated to fit the dimensions of the roof space, ready to be installed by an authorized Duro-Last contractor. Deck sections are mechanically attached or adhered to the roof deck and adjacent edges are heat-welded together, forming a watertight, monolithic covering.
- Is complete, with all fasteners, flashings, edge details, and other materials delivered to the job site.
- Includes flashings for critical rooftop transition areas that are precision-fabricated in a Duro-Last facility to fit those areas; there is minimal on-site assembly of these components.
- Is available in 50-mil membrane thickness.

Duro-Last 2-way roof vents equalize pressure and help dissipate moisture beneath the membrane.

The Rock-Ply roofing system is protected by the best warranty in the roofing industry. Our standard, comprehensive 15-year commercial warranty is transferable, has no exclusions for ponding water, and provides coverage against consequential damages that result from defects in the Duro-Last material and/or installation workmanship. Duro-Last also has 20-year limited warranties available.

Easily installed by authorized Duro-Last contractors.

Over 30 years of proven performance and the industry's best warranty ensure peace of mind.
