A Duro-Last Designer Series Roofing System.

# The Duro-Last® Shingle-Ply™ Roofing System

**Shingle Look -  
Watertight Single-Ply  
Performance**

# The Perfect Combination Of Watertight Integrity And Aesthetics.

The Duro-Last Shingle-Ply roofing system is ideal for commercial applications where building appearance is important, but conventional shingles may not be practical. The Shingle-Ply system:

- Provides a shingle look and the watertight performance and long-term durability of a thermoplastic, single-ply roofing system.
- Is made from the same proven, durable membrane as the traditional Duro-Last roofing system. The shingle design is printed onto the membrane, and a special polymer coating helps protect the finish from marring, fading, and dirt accumulation.
- Is delivered to the job site ready to be unrolled, positioned, and installed by an authorized Duro-Last contractor. Each piece is aligned with the installed adjacent piece and mechanically attached or adhered to the roof deck. Overlapping edges are heat-welded together, forming a watertight, monolithic covering.
- Includes flashings for critical rooftop transition areas that are precision-fabricated in a Duro-Last facility to fit those areas; there is minimal on-site assembly of these components.
- Is complete, with all fasteners, flashings, edge details and other components included in the order and delivered to the job site.
- Is available in Slate Gray or Sandstone in 50-mil membrane thickness.

The Shingle-Ply roofing system is protected by the best warranty in the roofing industry. Our standard, comprehensive 15-year commercial warranty is transferable, has no exclusions for ponding water, and provides coverage against consequential damages that result from defects in the Duro-Last material and/or installation workmanship. Duro-Last also has 20-year limited warranties available.

*Easily installed by authorized Duro-Last contractors.*

*Over 30 years of proven performance and the industry's best warranty ensure peace of mind.*

## 800-248-0280
